

Agpro[®]

Pop-Up Flush Valve

**THE ORIGINAL...
STILL THE BEST!**

The original pop-up type flush valve. Time tested... proven through years of continuous use! When not flushing Pop-up lid lays flat with floor to allow unobstructed access. Simple pneumatic operation with a *Firestone Airstroke*[®] actuator ensures reliability. Heavy duty hot dip galvanized steel construction for a lifetime of dependable operation. Valves are designed and proven to provide continuous, trouble-free service in the harsh environment of modern day dairying.

WAVE FLUSH[®]
